Dedication

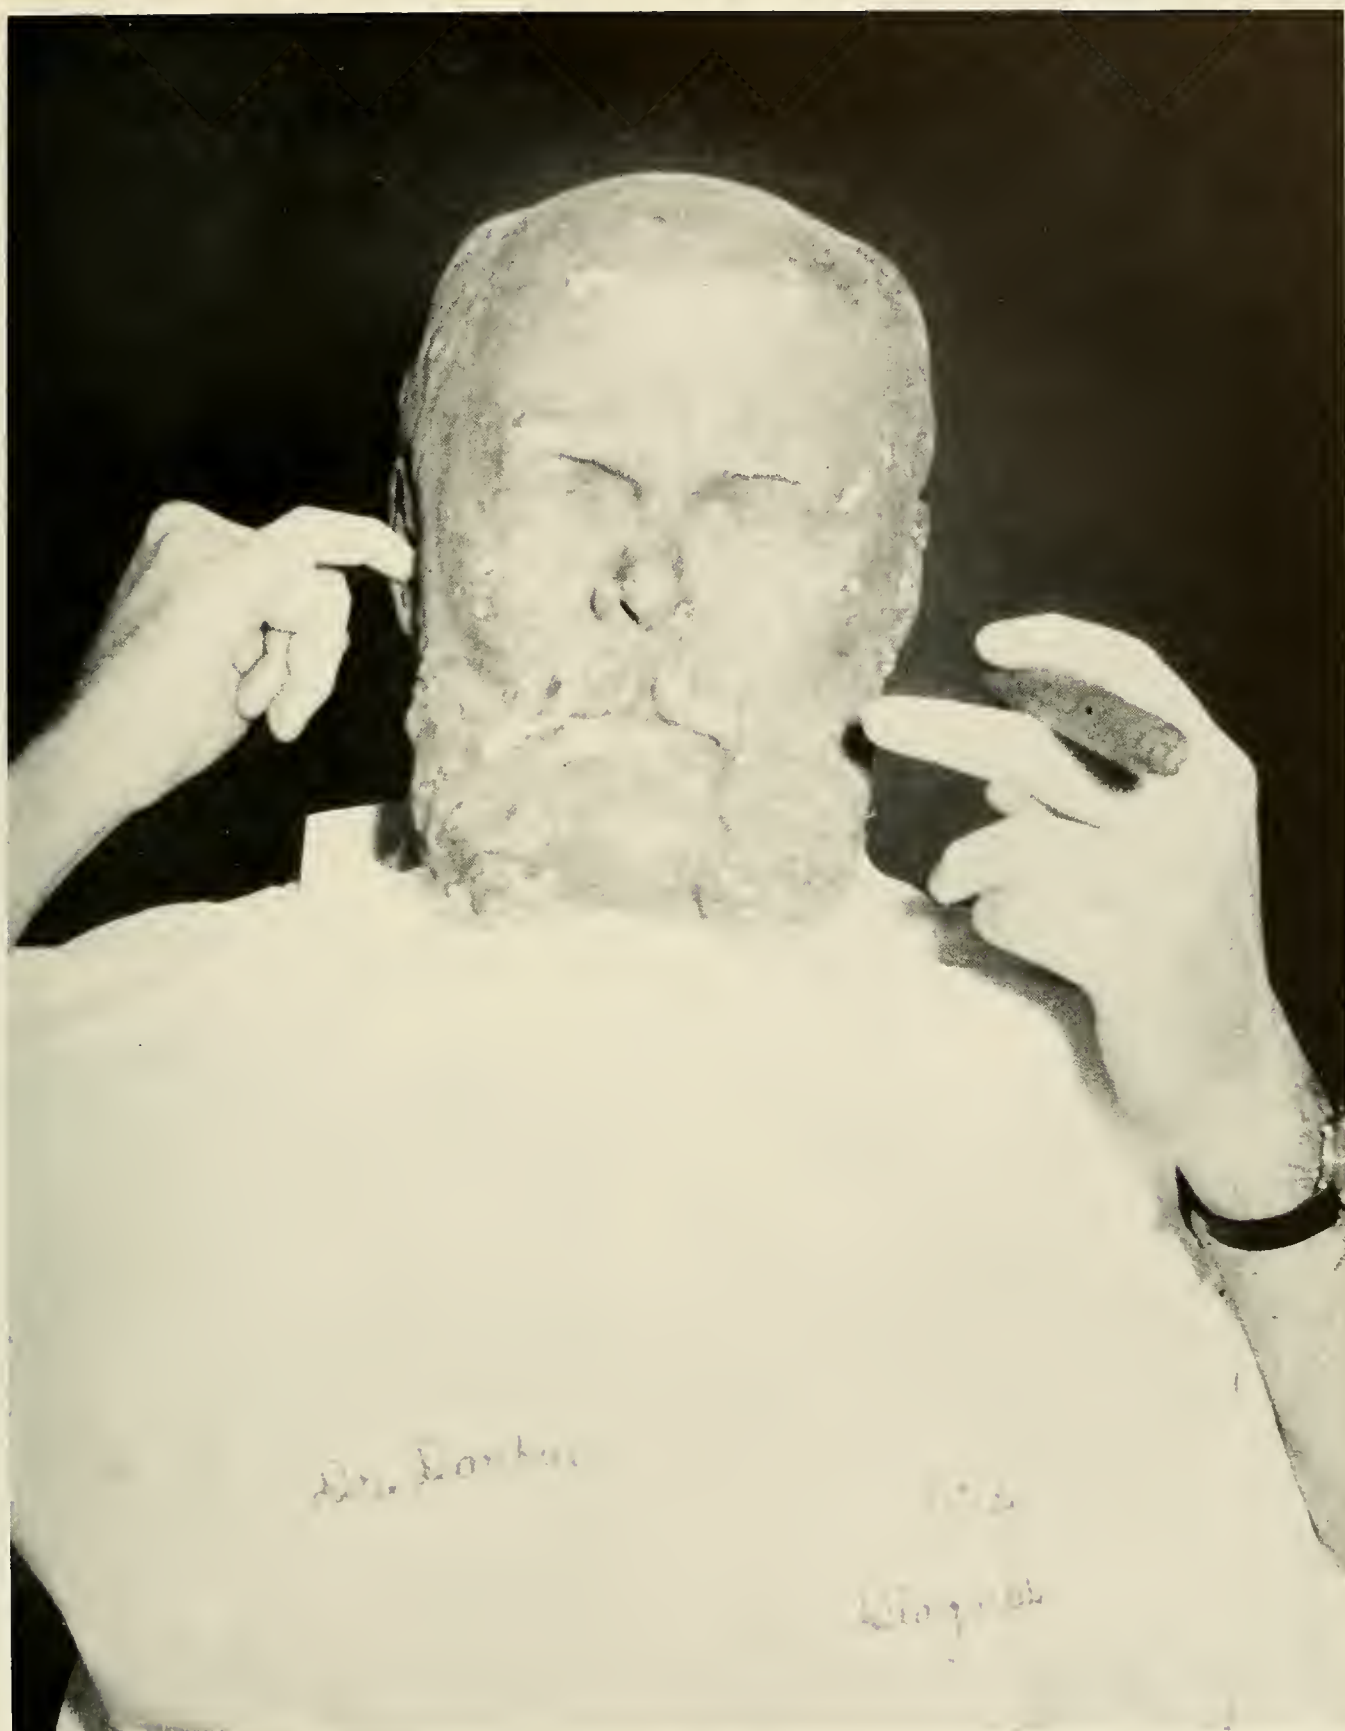

WILLIAM E. HAHN

Professor of Anatomy

We of the Class of 1962 proudly dedicate our yearbook to a man whose quiet dignity and seemingly cool exterior mask a genuine warmth and kindness toward students.

We salute you, WILLIAM E. HAHN, educator, scholar, and, above all—Gentleman.

JOHN THOMSON

LAWRENCE HALPERT

Nineteen hundred and sixty-two, the year man orbited in space, the year of the "twist," and the year "Gun Smoke" became an hour show, was also the year of the realization of a goal that four years ago, for certain individuals, had seemed an eternity away — a date that held no meaning at all 10 or 20 years ago, but was to be an inevitable factor in the destiny of 84 men. Eighty-four students of the B.C.D.S. would walk through the portals of a large gray building in Baltimore for the last time as students and for the first time as Doctors of Dental Surgery. Even the Northern boys might feel like expressing themselves with a Rebel yell of accomplishment.

Yes, the class with the first "Sagrog Society" and the "original four fat fellows" finally made it. What does it all mean? Each one of us now has his own professional life to live, his own decisions to make, and his own obligations to meet. Each of us now has to decide how he wants to practice dentistry, what he wants from the profession and what he is willing to give to it. We are not a unique class, neither are we any better or any worse than the previous 122 graduating classes of this school. We are only 84 men of approximately 3,000 men and women who will receive degrees from dental schools all over the country, but each of us is prepared to do his part to keep dentistry on the road to progress whether it be along the lines of further educational development, research, or the practice of sound, ethical dentistry. Perhaps if Horace Hayden and Chapin Harris could see this Class of '62 they might say to each other, "I think we can rest at ease, for the profession is in good hands!"

HONORARY SENIOR CLASS PRESIDENT

Nelson Wright

Each year the Senior Class honors one of its instructors by choosing him as honorary class president. This is an honor not lightly bestowed, for the man chosen must have certain attributes as an educator and as a man. He must possess an astute knowledge of dentistry and the ability to impart this knowledge to his students. And, above all, he must be a man that holds the respect not only of us but of his contemporaries as well.

Dr. Nelson Wright is such a man and educator and so we do justly honor him.

Recognition

In recognition of Dr. Richard C. Leonards' 33 years of service to the B.C.D.S., we, the class of 1962, pay this tribute.

Dr. Richard C. Leonard was graduated from the Indiana School of Dentistry, 1922. He served on the faculty of the B.C.D.S. as Instructor in Pedodontics, 1929-1945 and Instructor in Preventive and Public Health Dentistry 1929-1962.

He leaves us with these few words of retrospect. — "As per the good book, I was a stranger and ye took me in; took me in with a cordial welcome, with warmth, and with hospitality beyond compare. Passing years did not diminish the quality of those friendly attitudes. Whether one calls it chance, circumstances or the vagary of fortune, what ever it was that led to my association and my "adoption" by the "oldest dental school in the world," I thank God for it. It has meant splendid professional contacts and new friendships, and it has meant that these thirty or more years have been the happiest of my lifetime."

Thank you, Dr. Leonard, for giving your time and devotion to our school and to dentistry.

The Juniors

After those frantic and feverish freshman and sophomore years that we thought would never come to pass, we had great anticipation of what was ahead of us. Those of us who began our junior year in the middle of June might have thought something wicked was approaching, but it wasn't long before we drifted into the routine of things and had pity for the students who would be coming back in the fall to the various demonstrations and rubber dam requirements that are prerequisites to clinical work. True, the students that started in June were somewhat ahead of the game, but everyone seemed to be up to par before too many weeks had passed by.

As the year moved on, we found ourselves in the same position as in the past, being gassed to the fullest, wondering why our one o'clock and then three o'clock patients cancelled, and where we were going to get our final root canal patient.

When the first semester was completed, we could relax a little, knowing that we had more clinic time and being aware of the fact that we no longer had to make invigorating climbs to the sixth floor where the greatest gods dwelled.

Now we leave our junior year, knowing just a little of what to expect in the coming year. We know that the knowledge which we acquired with the most difficulty will be retained the longest, and we hope that our desire for knowledge will ever increase with the acquisition of it.

The Sophomores

After a well-earned summer vacation, our class returned to school to find it just as we had left it — not that we had expected any real change. Behind us was a most unforgettable year, yet a most rewarding one. Now we had one more year before getting the white clinic gowns and having patients.

Thinking that we had put all of the hardest obstacles behind us, we rapidly found that this conclusion was a fallacy. The pressure and panic surrounding us had only changed sources. The lectures on the "invisible ones" made us believe that surely we were all "living on borrowed time." Again our class could claim a first — the electronic marvel called a polygraph.

The dental technique courses increased in number and our "patients" suffered more "broken necks" than ever before in history. By the way — who says crowns don't have wings?

A most interesting year to say the least! We are now at the point of no return; two down and two to go.

The Freshmen

September 18, 1961, was a blissfully bright day — a day the Class of 1965 will remember for their first big step into the world of dentistry. With a hesitant gait we filed into the auditorium of the Health Sciences Library where we heard about the glorious history of this the oldest of all dental schools. Ninety-nine men and a pretty miss went through the first few weeks getting acquainted with our fellow dissectors. And we all began to wonder if Dean Aisenberg was right when he called us "the cream of the crop."

By mid-October we hit our first Anatomy exam and we were feeling right at home. With the first Histology cram we started to take "gas" and it never seemed to leave our lungs until that Neuro exam.

The Christmas vacation seemed like a delightful dream. But suddenly our tranquility was shattered like that New Year's eve balloon as January presented more and more work. With second semester an horrendous mess of new courses were immediately dumped in our laps. Few will forget those hectic months with the Neuro course hanging around just ready to cut down the stragglers.

It was a year that will live for its turbulent times, terrible twists, and tough feats. And who will ever forget — "Has anyone found a Moffit cell?" "I'm sure D. M. quizzes don't count." "I wish I had some back exams!" "Do we have to hand this in for a mark?" "How come S - - - was so damn grouchy today?" "Hey, how long is summer school?"

First Row: Arias, Freedman, Bloom, Freeman, Eldridge, , Barclay, Estes, Boissonneault, Carey, Friedman, Earnhart.

More than three decades ago a Northern storm deposited a proper Bostonian in our land of pleasant living. This giant of synonym, verb, and adjective — Gardner P. H. Foley — has contributed many of the “idears” and much of the work that result in the annual publication of the *Mirror*. It is to him that the Class of 1962, as other previous classes have done, say “Thank you, Mr. Foley.”

The Gorgas Odontological Society is an honorary scholastic organization established in 1916. The Society was named in honor of Ferdinand J. S. Gorgas, an alumnus and a leading contributor to dental education and literature.

Membership in the Society may be achieved in either the junior or senior year. Consideration for membership in the Society is based on the premise that certain academic standards have been met in the first two years of the course.

Monthly meetings afford members educational benefits beyond the outlined dental school curriculum through the presentations of guest speakers from private practice and from other institutions. Each year at the spring formal senior members are presented with a key and certificate. The faculty advisor is Dr. Jose E. Medina, Professor of Operative Dentistry.

The primary objectives of the Student Senate are to serve as a liaison between the student body and the faculty; to promote and maintain harmonious student-faculty relations; to consider any problems of common interest that may confront the student body and to recommend solutions to them. In addition, the Student Senate contributes much to student life and activities. Tournaments are annually scheduled in bowling, basketball, and softball. A short-term loan fund and general student funds are administered and budgeted by the Senate. Five dances are planned for the school year: the Student Senate Mixer, three class dances, and the senior banquet and dance.

The Interfraternity Council is one of the important groups participating in student activities at the dental school. The Council is composed of the presidents and vice-presidents of each of the dental fraternities.

The main function of the IFC is the supervision of the annual rush period. This year rush was held from February 5 to 17. The Council also contributed to the bowling, basketball, and softball leagues by awarding trophies and underwriting athletic facility fees.

Each year the IFC awards a trophy to that senior who is voted by his class as having been most outstanding in student activities during the four years at dental school.

This year's officers were David Rubin, President (AO); Gary Clendenin, Vice-president (Psi O); Barry Buchman, Secretary (S ED) and Larry Gallerani, Treasurer (ZIP).

Between the two trips of Mr. Hollenback's little machine and the whirling of the thermotrol, the sports program is again being given active support by the student body.

Except for the athletic feats performed with compound and sticky wax, organized fall sports were absent from the campus at B.C.D.S. However, after an unexpected phone call resulting in a cancellation, the game room at the Student Union was the busiest place on campus. Ping pong and pool have become the senior's leading pastimes. Lee Rabago takes on all comers in ping pong and Al Miyamoto, the senior pool shark, keeps a pocket full of change.

The B.C.D.S. version of the N.B.A. opened with six strong teams pounding the courts. In spite of the wear and tear of four years, the seniors showed a well-balanced team composed of the sharp-shooting of Simmons, Snow and Kirby; the ball handling of Lowell, Pizzi, Roth and Schwartz; and the lonely pivot man, Sopher. With a few games left to be played, the teams to beat are the Zips, Seniors and Juniors.

The annual bowling tournament got off to an early start this year with all the fraternities entering strong teams. The Zips, paced by Wildman, rolled over the first round, but S.E.D. bounced back strong to take the second round. As this page goes to press, a bowl-off is to be held between the Zips and S.E.D.

BUT MR. GLENN..... WE WOULD LIKE FOR YOU
TO HAVE AN APPOINTMENT FIRST !

Clinics

Diagnosis

May I suggest a shine instead of a haircut, sir?

Yes, you have to have all your teeth pulled to be a Junior.

We dare you!

You ought to know better than to keep your dentures in your pocket!

Roentgenology

No, it's not a Mickey Mouse series.

In one ear and out the other.

Take a short break, be back at 4:30.

Grab it quick, he's swallowing it!

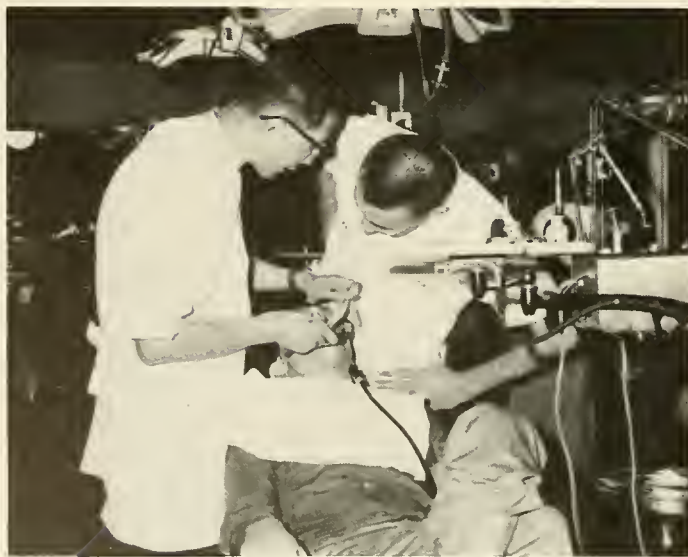

Operative

Smile; your picture is being taken.

Is today a holiday?

Hold instrument, like hold chopstick.

But I assure you, madam, I'm well qualified to
substitute for Mr. Millison.

Operative

I suggest that you change that DO foil on No. 1 to amalgam.

You mean, I need an order for an order blank?

Decay? I thought that was soft dentine.

Mmmmmmm, so that's how it is done!!!

Oral Medicine

I still think there's a sixth canal.

Let it snow, let it snow, let it snow . . .

Eight appointments for scale and polish?

Sooooo?

Pedodontics

Darn it, missed that mandibular again — where's that used carpel?

This is the way you bounce a Tiddley Wink.

Let go of my fingers — you little *\$&* !

"Katanga Angels."

Crown and Bridge

Call mother, Ruthie. We'll be late for dinner again.

Next time I'll get a student.

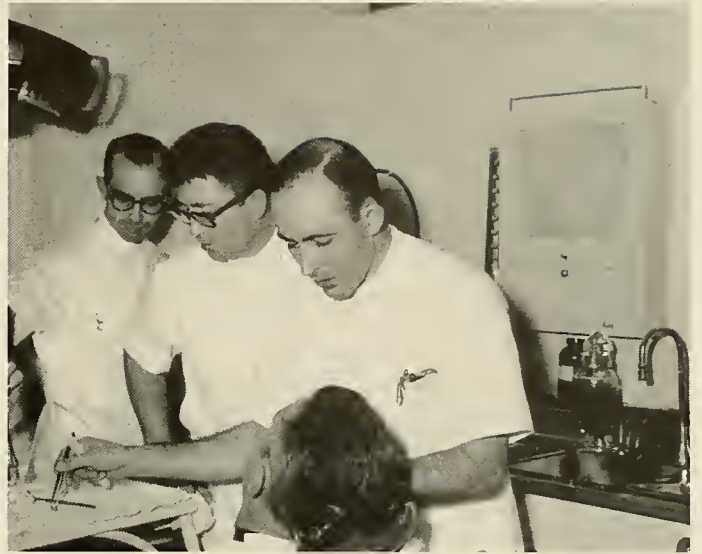

Lookee, I burnt up another pontic.

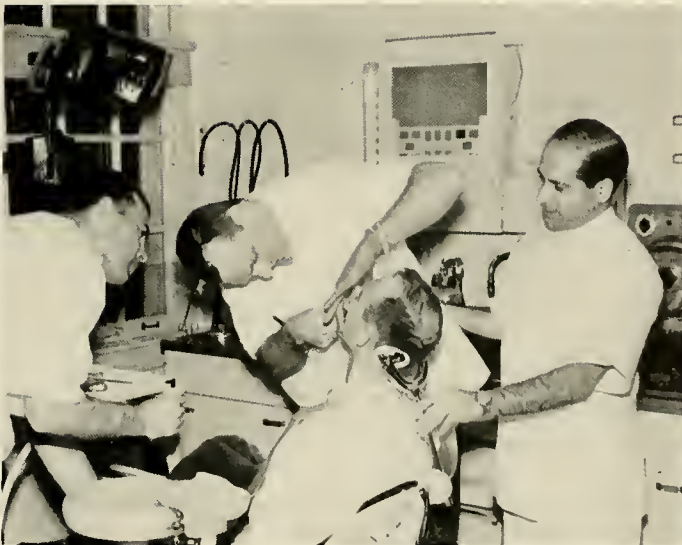

If Ernie see it, he make you do over.

Surgery

Save that Gold for me, Jones.

He's not quite cyanotic enough.

I know that the Chinese extract with their fingers, but here we use forceps. It doesn't make any difference now; I got the foil checked off.

Prosthetics

This is easy, really

Well, he has National Boards today.

What is the path of insertion for a fifteen-tooth partial?

California, here I come.

Prosthetics

The pause that refreshes.

Hold your breath, madam, it only takes 8 minutes to set.

Have you heard the one about—?

If I don't look, maybe they'll go away.

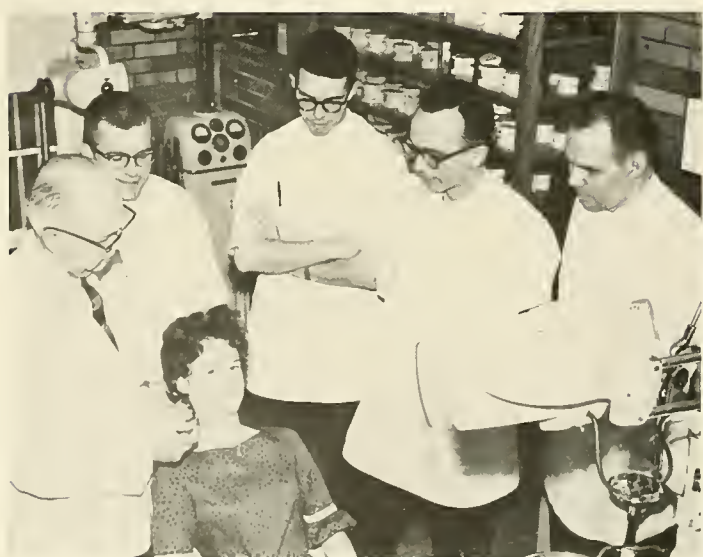

Orthodontics

But, Mr. Bushman, *this* time I think you are wrong.

We should be able to hook these glasses into the arch bar.

He's not going to put a modified Crozat appliance with a Jackson crib type clasp and Johnson twin wire in my mouth.

It's not ethical to extract all the teeth and put in full uppers and lowers.

Class Will

We, The members of The Class of 1962, being of "washed" minds and bedraggled bodies, having cemented that last bridge, filled that last canal, and pounded — oops — *condensed* that last foil, do hereby declare this to be our last will and testament and bequeath the following:

ABBOTT leaves his book on *Clinic Etiquette*.
ALBERTINI leaves . . . through the keyhole.
ANDREWS leaves *if* Maggie picks him up.
APFEL leaves *no* unfinished patients.
APTER leaves a "Twist" record for Dr. Medina.
AXELROD leaves them laughing.
BALENSON AND SOBKOV leave to "figure the angles."
BARNES goes West, at last.
BERMAN leaves, *knowing* he is right.
BLUM leaves in full bluum.
BOWEN leaves quietly.
BROWN leaves his binoculars with Dr. Shay.
BUCHETTO leaves his nose.
BUCHMAN leaves his worn-out pool cue.
BUSHMAN leaves a record to beat.
CHARLTON . . . too tired to leave.
CLEDENIN leaves to practice "ideal dentistry."
CONSTANTINOS leaves a list of "don'ts" for next year's editor.
DICKSON leaves late.
DOETZER AND DRESCHER leave a puddle at The Graybar Hotel.
DOWNES AND LILLEY haven't left; they're waiting for Dickson.
ENGEL leaves from a window on the fifth floor.
FISCHER leaves in his Cadillac.
FOULKE leaves to get a shine.
FRIEDMAN AND HALPERT leave Dr. Dosh alone.
GABLE leaves his car to be towed away.
GALLERANI leaves reluctantly.
GLAESER leaves to go muskrat trapping.
GLATZER leaves for Italy.
GOLDENBERG leaves.
GORDON leaves smiling.
GOODREAU leaves the hallowed halls echoing.
GOLDMAN leaves wondering what Gordon's smiling about.
GRACE AND HACKNEY leave for Ruth's.
JOHNS takes to the hills!
JOHNSON AND GALLAGHER leave four empty seats.
JONES leaves to fight the centennial — with *real* bullets.
KIRBY leaves for the Gayety.

KLINE leaves his childhood.
KORITZER leaves, too old to practice.
KRAMER leaves wondering why he didn't go into law.
LEVY leaves his mother-in-law in C. and B.
LOWELL AND PALLER leave hand in hand.
MARKOWITZ leaves a note — taking slide projector.
MILLISON leaves talking to himself.
MECHANICK leaves to keep an eye on Millison.
MILLS leaves a collection of poems.
NORTON leaves "Kermit."
PARKER leaves unscathed.
PERTNOY leaves his radio blaring in the senior lab.
PINSKY leaves one partial behind.
PIZZI AND ROMEO leave a pizza in the oven.
RABAGO AND MIYAMOTO leave for the links.
RANKIN leaves his textbook RANKINOLOGY — one *given* away with every lollipop.
REGAN leaves with a friend.
ROPER leaves — still hungry.
ROTH leaves singing "Life is just a bowl of cherries."
RUBIN leaves his crossword puzzles in Room 37.
RUDO leaves his book *Life of a Kamikaze Pilot*.
SALVO leaves tarred and feathered because of this will.
SCHULZ leaves civilization far behind.
SCHUNICK leaves his book *I was a Bruxist*.
SCHWARTZ leaves to "do it over."
SIMMONS leaves his hair.
SNOW leaves with one shoe on and one shoe off.
SOPHER leaves to become an "R.D."
SULLIVAN leaves too fast to say goodbye.
THOMSON leaves to catch up with his brother.
TRAGER leaves temporarily — till he returns as Dean.
WARREN leaves to be a stand-in for Bat Masterson.
WARSON leaves in a cloud of dust.
WEINSTEIN leaves, creating a void.
WILHELM leaves to the music of "Big Bad John."
WOOD leaves, finally "straightened out."
YOUNG can't leave — no room left at home.

Experienced help on all these subjects is available to you without cost or obligation from Caulk and Harris Dental Companies through the many branch offices and representatives.

Few sources can offer you more

facts, more impartial opinions and advice . . . recommendations based on our years of practice-starting experience. We have helped thousands of dentists with all the details of opening their offices; we'd like to help you, too.

2 Outstanding Contributions to Dental Education and Practice

COLUMBIA DENTOFORMS

FROM a humble start 41 years ago Columbia Dentoforms have played an increasingly important role in dental education. Today every dental student in the United States and Canada "cuts" his first teeth on Dentoforms, for we supply Dentoforms to every dental college in the U. S. and Canada and to many in other lands.

In these 41 years there have been many improvements and additions to Dentoforms to meet the ever more exacting demands of teachers. Today, Dentoforms number more than a thousand and present conditions the student will encounter in practice. And in graduate years, Dentoforms continue to help clinicians in postgraduate education and to help the busy practitioner in his endless task of patient-education by showing the better dentistry he seeks to give.

BROWN ATTACHMENTS

BROWN Precision Attachments have been used successfully since 1920, when patents were granted to their inventor, Dr. I. Brown. This event followed by only a few years the impetus that Dr. Herman Chayes gave to the advance in removable restorations by the introduction of the precision attachment.

So simple, yet so effective and practical are the design and mechanical principles employed in Brown Attachments, that they have defied every effort to improve upon them for 41 years. Except for the addition of the proximal contact, to give the convenience of a built-in proximal contact, no change in design has been made. The sizes of the Brown Attachments made today are identical with those made 41 years ago—a comforting thought, if replacement parts are required.
